Large-Language Models Disclosure

This document must be attached as the first page of any assignment you submit to this course.

Student Name: __Zhema Wen, Naomi Habte, Molly Kanyatsi, Arine Karapetyan__

Student Number: _____300087146, 300228315, 300132978, 300258951_____

What large language models did you use to help you complete this assignment? (ChatGPT, Bard, etc.)
___**Chat GPT**_____

Please provide the 5 prompts you found most useful for solving this assignment:

How to edit different GitHub branches on android studio

Code error explanation

My app keeps quitting on android studio

Why isn't my txt showing up as a "hint" in android studio

_____

What limitations did you identify using LLM for this assignment? How did you overcome them?

Although chat GPT was useful in teaching topics that were difficult to understand, there were limitations when it came to specific requests, such as the LLM misunderstanding/misinterpreting my questions. There were also certain mistakes when it came to questions regarding code.

Through your experience with using LLM to help you solve this assignment, what have you learned? How did this experience enhance your skills/thought process for future challenges?

Our experience with using LLM has been positive and useful for this assignment We learned that there are certain questions that are easily answered and some others that are not answered properly no matter how you rephrase it. This experience enhanced our skills because the LLM taught us how to complete difficult tasks that we didn't understand, nor did we know how to start
